

Rowdy Raisins

Materials

- Goggles
- Clear plastic cups
- Plastic spoons
- Water
- Vinegar
- Baking soda
- Raisins
- Noodles
- Paper clips
- Crumpled paper
- Beans
- Broken pieces of spaghetti

Part One

Step 1: Measure 1 cup of water into clear plastic glass.
Stir in 3 teaspoons of Baking soda until dissolved.
Add 9 teaspoons of vinegar.
Observe. What do you see?
Have you combined these materials before?
Did they react the same way?

Step 2: Place 5 raisins into the glass. Wait.
What do you observe?

Part Two

Step 1: What do you think will happen when you add:

- Noodles
- Beans
- Crumpled paper
- Paper clip
- Broken pieces of spaghetti

Observe and record your findings.
Make a chart to show your findings.
